## Commissioners Corner

---

**February 21, 2022 - Commissioner Gold**

**I want to share this with you.**

I want to share this with you because all we hear is the criticisms and complaints so often. I am truly delighted to be able to share compliments for a change!

Upon returning home from dinner Friday night, I greeted two neighbors walking their dog past my home. I could not immediately make them out, but upon hearing their voices, I recognized them as my neighbors that live on the end of the street near the cul-de-sac. We exchanged pleasantries, and they asked me a few questions about the city.

I answered their questions, and they made a point of telling me how helpful Bob Francis, our city manager, had been on two different occasions. First, they had been having numerous problems with their electrical service where it had been going off and on frequently, doing damage to some of their electronic devices. Bob knew exactly who to call at Duke Power and saw that the matter was resolved promptly. Second, he was extremely helpful with their son's Eagle Scout project offering guidance and a substantial amount of his time.
